C Code Develop 隐私政策

感谢您使用 C Code Develop。此软件不会将您的任何个人信息主动上传或存储在网络服务器中。

此软件会在您的程序调用 http.h 中的 API 时访问网络，或在您的程序刷新凭据时访问网络。在您的程序刷新凭据时，我们会将您本地的关于此 App 在 App Store 购买的凭据发送至我们的凭据服务器，凭据服务器不会保存您的任何信息，仅用于验证您的购买。凭据中可能包含：您的购买时间和退款时间（如果有退款），我们会使用适当的加密技术来保护您的凭据。凭据服务器存在的目的为正版验证。

如果您开启了系统设置中的开发者共享，我们会在您的设备上的 C Code Develop App 出现崩溃时收到崩溃报告，其中可能包括无法识别用户，无法将用户与数据关联起来的、不含任何运行时数据的最后堆栈结构、设备类型等大量样本统计数据。

除以上两种已声明的信息获取渠道外，我们无法拿到您的任何其它资料，此软件会保证您的隐私安全。

C Code Develop Privacy Policy

(Modified on 2022/8/20)

Thank you for using C Code Develop. This software does not actively upload or store any of your personal information on web servers.

This software accesses the network when your program calls the API in http.h, or when your program refreshes the credentials. When your program refreshes the credentials, we will send your local credentials about this App purchased in the App Store to our credential server. The credential server will not save any of your information and is only used to verify your purchase. Credentials may contain: the time of your purchase and the time of your refund (if any), we will use appropriate encryption to protect your credentials. Credential servers exist for genuine authentication.

If you have developer sharing turned on in your system settings, we will receive crash reports when the C Code Develop App crashes on your device, which may include unrecognized users, unable to associate users with data, no Extensive sample statistics of the last stack structure, device type, etc. for any runtime data.

Except for the above two declared information acquisition channels, we cannot get any other information about you, and this software will ensure your privacy.
